Dealing Is Moderately Active, but Price Movements Are Narrow.

PROFIT TAKING IS SMALL

#### Demand for Several Issues in Late Trading Results in Little Rallies.

The market for outside securities vesterday turned irregular after a steady and quiet opening. Business was on a moderately large scale, but prices continued to move over a narrow course. Profit taking after the first few minutes of trading caused small losses, but offerings were not heavy and in most cases were well taken. Several issues were in fair demand in the late after-

were in fair demand in the late aftermoon resulting in small rallies.

There were several strong spots in
the industrial section. Jones Brothers'
Tea and Freeport and Texas were in
good demand. Remington Typewriter
and Consolidated Cigar common rallied
after opening lower. Allied Packers was
in good demand in the late trading
recovering a loss of more than a point
in the morning.

recovering a less of more than a point in the morning.

Tire stocks were irregular. Fisk was slightly higher and Intercontinental Rubber lost a fraction. New York Savold was the most active of its group. United Retail Stores reacted after opening higher, but railied later. Tennessee Railway Light and Power was well bought, rising more than a point.

Olis generally were lower. There was renewed heavy trading. The Sinclair issues, Commonwealth Petroleum, Merritt Oil and Midwest Refining weakened after a brief display of strength at the

after a brief display of strength at the Mining shares were dull but steady.

Strength was again shown in the Rus-sian Government external issues in a quiet bond market. Total sales and range of prices fol-

# SEES PERIL IN HOME LOAN BANKS PLAN

John J. Pulleyn Sees Business

### IMPORTS OF GERMAN **FURS TO BE SOUGHT**

O. Godfrey Becker Named to

At a recent meeting of members of the various associations of the fur industry in this city O. Godfrey Becker of Becker Rrothers & Co. was appointed to represent the local fur men at a meeting to be held in Washington to discuss the matter. It is expected that he will go to the capital within a day or two.

While few factors in the trade are will be a capital within a day or two.

willing to express an opinion, those who do say that unless Mr. Becker's report should show some unusually undestrable conditions it is likely the trade here will favor permitting Germany to ship furs to allied countries.

Dearth of Felt Hats Predicted. The prediction is made by manufacturers that there will be a dearth of men's felt hats for the coming fall season, due to the labor difficulties in both the raw material and manufacturing branches of the industry. The forty-four hour work week is said to be the principal cause for

reduced production.

In some quarterst manufacturers express the opinion that the shortage of both feit and straw hats will not be relieved for the spring season 1920.

Would Reduce Express Shipments. Would Reduce Express Shipments.

The elimination of shipments of merchandise by express will be one of the matters taken up at the joint meeting of the retail and wholesale clothiers, to be held in the Hotel Brevoort July 15. It has been the custom for manufacturers to name their prices on a freight shipment basis, and they point out that for every garment shipped by express their profits are reduced.

If, however, the retailers insist upon the shipment of goods by express it is felt by many manufacturers in the trade here that the retailers should pay at least a proportionate share of this expense.

Protect U. S. Button Industry.

WASHINGTON, June 24.—Hearings on the pearl button industry in this country, which began yesterday before a sub-committee of the Ways and Means Committee, ended to-day with several members of the House urging that quick revision upward of the present tariff law be recommended by the committee in order to protect the American manufacturers against foreign competition. facturers against foreign competition.

The burden of the argument presented was the difference between labor cost in the United States and in Japan.

In the local raw silk market yester-day double extra cracks were quoted at \$10.50, Kansai No. 1 at \$3.52½ and Sinshui No. 1 at \$3.52½ and sof the high prices manufacturers were said to be buying freely. The price of double extra thrown silk has passed \$12 for spot delivery and is quoted at \$12 for September-October delivery, while all other grades are priced in proportion.

Big Shipments of Cotton Goods. According to information received by local customs officials imports of cotton goods from Japan and China during the next few months will exceed all pre-

vious records.

Much of this merchandise was held in warehouses during that period when imports on cottons to this country from

Washington, June 24.—Lynn W. Meekins, for the last three years commercial agent of the Bureau of Foreign

mittees, according to officials of the Amalgamated Textile Workers of America.

A large number of workers in the trade are covered by negotiations completed or pending with certain manufacturers.

Dyes for Shirtings Needed.

As the result of action taken by the executive committee of the National Association of Shirt Manufacturers at a meeting held in this city yesterday the organisation will seek information regarding the future of the vat dye situation in the United States. A committee headed by Ralph Hunter, was appointed to take up the matter.

While American made dyes have been a success so far as woollen plece goods and sitks have been concerned, it was pointed out that no effort has been made by American manufacturers to develop dyes which may be used on cotton shirtings.

Prior to 1914 all dyes for shirtings were imported from Germany, and the bulk of the dyeing for better grades shirtings since the importation of German dyes was suspended has been carried on from the stocks on hand at the outbreak of the war. Cotton textile dyes have been made in Amarica with a certain amount of success, it was stated, but the dyes necessary for the printing of the hairline effects on cotton fabrics have not been developed.

of Savings Institutions
Threatened.

Special Despatch to Tue Bun.
CLEVELAND, June 24.—The proposed dangerous to the mutual savings institutions of America, said John J. Pulleyn, a president of the Emigrant Industrial Savings Bank of New York, at the seventieth anniversary dinner of the Society for Savings banks of America have entieth anniversary dinner of the Society for Savings banks of America have the come through the trying period from 1314 to 1319 safe and sound and attractions have sindertacked their home building function and are in fact veritable savings banks.

The deplatation provate agencies and would replace them by the Government, many of them vitally affecting savings banks of the proposed form very temporary need and newfangled bureaucratic idea is deplored, particularly at a time when Government credit should be protected in every possible way. If we are guing to organize a permanent bureau in Washington whenever a temporary need arises, what kind of a topheavy political structure will exist in Washington?

"The savings banks of America have to organize a permanent bureau in Washington whenever a temporary need arises, what kind of a topheavy political structure will exist in Washington?

"The bousing situation is a very serious problem, but the problem cannot which is simply to further the work of which is simply to further the work of the socialistic octopus.

"The apparent promiscuous use of Government, many of them vitally affecting savings banks.

"The devertment credit of every temporary need and newfangled bureaucratic idea to make the wind a time when Government credit for every temporary need and newfangled bureaucratic idea to make the wind a time when Government credit for every temporary need and newfangled bureaucratic idea to make up with the War Trade Board in Washington within a few days in every possible way. If we are guing the question of importing fur from grant the fur industrial in every possible way. If we are guing the protected in every possible way. If we are guing the

come through the trying period iron.

1914 to 1919 safe and sound and stronger in the estimation of the public at large. Severe and unusual tests have been applied during these years, have been applied during these years, have been applied during these years, have been applied during these years. have been applied during these years, and more than once we were anxious as to the final outcome. We have suffered losses in deposits. We have purchased liberally of the nation's bonds. We have been active distributors of war savings and thrift stamps, but through all our vicissitudes we have gained universal recognition as an indispensable factor to the progress of the country. Our Shipments, 93,345; average, 46,523.

broadened.

"A serious and dangerous matter threatens the business of the mutual savings institutions in the creation of the proposed Federal home loan banks to be formed and used by building and loan associations. The seriousness of this departure is that in many States these associations have sidetracked their home building function and are in fact varitable savings banks.
